

# 2nd International Symposium by Ryugakusei in Rinku Campus, Osaka Prefecture University

**Date: May 27th, 2016**

**Place: Meeting room 1 (A103) in Rinku Campus, OPU**

**Fee: Free**

**14:00-14:10 Opening remarks (Prof. Jyoji Yamate)**

**14:10-14:45**

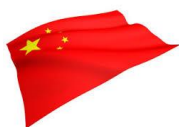

**1. Ms. Nadeeka Harshini De Silva from Laboratory of Cell Pathobiology, OPU (Sri Lanka)**

**Improvement of tumor immunotherapy using a dendritic cell-targeting Toll-like receptor ligand and inhibitors of cyclooxygenase in mouse and dog tumor models**

**14:45-15:20**

**2. Ms. Yiming Li from Laboratory of International Prevention of Epidemics, OPU (China)**

**Detection and characteristic of emerging *Campylobacter* isolated from dogs and cats**

**15:20-15:55**

**3. Mr. Del Valle Fletcher from Laboratory of Veterinary Internal Medicine, OPU**

**(Phillipines)**

**Detection and molecular characterization of chicken anemia virus from two replacement pullet farms in Eastern Japan**

**15:55-16:05 Tea break**

**16:05-16:40**

**4. Ms. Phuong Hoai Hoang from Laboratory of International Prevention of Epidemics, OPU**

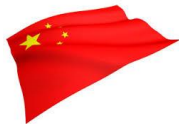

**(Vietnam)**

**Effects of ampicillin treatment on intestinal colonization of ESBL-producing *Escherichia coli* and *in vivo* horizontal transfer of the ESBL-conferring plasmid**

**16:40-17:15**

**5. Mr. Simo Sun, Food and Human Health Sciences from Osaka City University (China)**

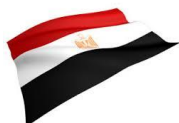

**The roles of TOL-1 in the effects of bifidobacteria on longevity and behavior of *Caenorhabditis elegans***

**17:15-17:50**

**6. Dr. Elgendy Mamdouh from Laboratory of International Prevention of Epidemics, OPU**

**(Egypt)**

**Genetic characterization and phylogenetic analysis of vibrios communities in Japanese coastal aquatic environment**

**17:50-18:00 Closing remarks (Prof. Kazumi Sasai)**

**18:15- Free discussion**

**Contact information: Prof. Shinji Yamasaki**

**TEL: 072-463-5653**

**E-mail: shinji@vet.osakafu-u.ac.jp**

**Support : The Alumni and Alumnae Society of Veterinary School,  
Osaka Prefecture University (大阪府立大学獣医学友会)**
