Osaka Prefecture University Health Care Center

Bookmark of the Nakamozu Campus
 health care room use

《Opening hours》
 Monday-Friday
 9:00-17:45

Our main works are first aid, a medical checkup and health consultation.

For example... I'd like to know a hospital near here. I'd like to take my temperature and blood pressure. I'm in bad condition.
Such as I was injured.

Please come to the consultation any time about health.

Annual medical checkup

- Annual medical checkup are carried out on all students every year.
- Details will be announced latter.

Specific medical checkup

- Medical checkup such as ionizing radiation and organic solvents are carried out every May and November.

Certificate of health

- Place: A3 ridge first floor lobby
- Operation time: From 9:00 to 18:00
(except Saturdays, Sundays, and holidays)

Student ID card and a password (four columns) are necessary. You make a plan not to be upset, and let's publish it.

Health consultation

- If you are anxious about your health before going to the hospital a school doctor and a nurse guide you.
Because we adhere rigidly, please use the privacy in peace.
- The health consultation by the school doctor (internal medicine, psychiatrist) needs reservations. We accept it over a health care room window or a telephone.
- In a schedule of the consultation, I guide you in student portal "whole school schedule".

First aid

- We aid your injury and your emergency measure of illness.
- We do not put the OTC drugs in the health care room such as the pain-killers for headaches, cold medicine, disinfectant, and the compress.
- There is the private rooms you can rest.

Measurement room

- There is a measuring room that can be used freely.
- There are body composition monitor, blood pressure monitor, and hand dynamometer.

School infectious disease

• Procedure when you suffered from a school infectious disease

- 1 When you may have the infectious disease (fever, cough, poor physical condition, rash) consults a medical institution immediately.
- 2 When a school infectious disease is diagnosed as or there being the suspicion, you contact the university promptly by all means.

• Contact information to the university
