## 留学レポート Study Abroad Report

This was the first time that I stayed in Australia and experienced homestay.

Before I had been to Australia, I was so nervous. Especially, I worried about how my host family was and whether I could make myself understood in English. However, despite of my anxiety, studying in Melbourne was fantastic.

First, my host family was kind. Every night, I talked with my host mother and watched Australian TV show together. Sometimes, because of my poor English skills, I could not communicate with host mother. However, host mother told me what was incorrect and spoke English more slowly. That was a big help for me. Thanks to the kindness, I could learn about Australian daily conversation and vocabulary. Host mother likes cooking and I am also good at cooking. Sometimes, I made dinner with her. For example, we made dumpling, pizza and pasta. Host daughter is vegan so we made dumpling by using sweet potato.

Second, I studied English at Monash University. My teacher was active and always encouraged me. At the beginning of class, we practiced speaking English for a short time. For example, we made pair and each group talked about their weekend, family, friends, and dream. I think this was not only activity which improve my speaking skill, but also which I could know classmate information. The most exciting activity was presentation. I had a presentation with Arabia classmate. Preparing it was so hard because I had to discuss in English and make power point. However, our presentation was quite good and that became my special memory.

Third, I could visit a lot of places afterschool and on weekend. For example, I visited fhilip island. I saw a lot of cute penguins there. Australia has important role for wild animals. Australian (especially endangered species) By visiting there, I could learn about Australian environment.
