

OPU Students 海外留学レポート

Study Abroad Report from the OPU students

プロフィール

氏名 野辺 篤
所属 大阪府立大学 理学系研究科 数理科学専攻
学年 修士二年

留学先 モナシユ大学

留学期間 2020/8/10~2020/8/28

記入日 2020/9/5

留学レポート Study Abroad Report

◆REASON

At first, I explain about why I took part in this program. I'm a 2 years student doing a master mathematics degree. It's a little late for studying abroad but I challenged this because I think it is very important to enter the situation that I have to speak and listen English. This real experience gave me many realizations about the profits of studying English. For example, I noticed poor knowledge of English limits the opportunity to speak and act. Sometimes, I had to give up saying my opinion because I didn't know how to explain my opinion. I was so disappointed that I decided to continue studying English. Another example is that speaking English enables me to communicate with many people who have different cultures and thoughts. Through the program, I was surprised at Korean's high level of English ability and rich emotional expression.

◆content

For the content of the program, I think the level is not too easy and it is moderate for me. In the class, I like playing the vocabulary game with my classmate. We use that game by using smartphone. The first person to solve all vocabulary quiz wins the game and gets the title of quiz king!! But, regrettably I never could win the game. Other than that, the class has a lesson that we watch the video about the topics of the day and discuss the content after that. The most difficult part of my lesson is listening. Sometimes I couldn't hear what that was saying, I when I asked my classmates any questions, they kindly told me. At that time, I was moved by the kindness of my classmates. Of course, even if I ask the teacher a question, they will answer. The content of the video was full of useful topics such as differences in etiquette around the world, important things in discussion, how to present.

◆happening

When I was taking classes, I had a hard time disconnecting Wi-Fi. This sometimes hindered classes. So if you are thinking of studying online, you should pay attention to the communication environment. Some of my classmates had bad internet and took classes at a café, but I don't recommend it. That's because the noise around him made his voice hard to hear.

◆key point

I think the most interesting point in the class is the character of our teacher. We have two teachers and both of them are very good at making class exciting and enlived. I will put a picture of the teacher who turned into a banana. You can understand how interesting our teachers are by looking at this, can't you?
